Piecing together the intent, purpose, context and structure of a statute can be difficult enough. But wait, there's more. Statutory interpretation can also involve complex questions tied to judicial review. And unique events such as the repeal of a statute can add further complexity. It can be a challenge to keep it all straight, but luckily we've assembled a renowned collection of masters in the area who will impart their knowledge and insights to help you elevate your statutory interpretation skills.

Chair: Dr Kristine Hanscombe QC, List G Barristers

## Intent, Purpose, Context and Structure: How Does it All Fit Together?

- Judicial instructions relating to the application of purpose, context and structure in statutory interpretation
- How application of the same legislation to the same facts can lead to significantly different judicial outcomes
- How these principles fit together in the statutory interpretation case of *FCT v BHP Billiton Limited* [2019]

Presented by **Matthew Meng**, Barrister, Greens List

## Practical Problem Solving Workshop

- A practical exercise in working through a statutory problem, with opportunity for discussion and commentary
- Common words and phrases used in statutes and how they are interpreted
- Common pitfalls of statutory interpretation

Presented by **James Stoller**, Barrister, Foley's List

## Judicial Review and Statutory Interpretation

- Judicial review inevitably involves construing the scope of the relevant power, which is almost always a process of statutory construction
- Each ground of judicial review (procedural fairness; relevancy; improper purpose; unauthorised delegation; jurisdictional error; error of law on the face of the record) will require a consideration of the meaning of the empowering statute in order to ascertain whether power has been exceeded in the relevant way
- Statutory interpretation is also central to determining what the results of an error are and whether invalidity will necessarily follow from a finding of error

Presented by **Sarala Fitzgerald**, Barrister, List G Barristers

## What is Preserved Upon a Repeal of Statute?

- The legal view of the effect of repeal of an Act used to be that, after repeal, the Act was treated as if it never existed and pre-existing law revived
- The enactment of provisions such as s 8 of the Acts Interpretation Act 1901 (Cth) has changed that legal view, and established a regime in which rights that accrued and liabilities that were incurred under the repealed Act survive the repeal, as do legal proceedings that have been commenced
- Particular rules operate with respect to the repeal of delegated legislation, and procedural rules in repealed Acts

Presented by **Peter Hanks QC**, List G Barristers and **Frances Gordon**, Barrister, List G Barristers

# INFORMATION LAW FOR GOVERNMENT

RECORDED IN SEPTEMBER 2019 IN WA \$405  
3 CPD UNITS [>click here to see online](#) OND199W04

Is privilege lost when shared within government? Who can waive the privilege? When is confidentiality the exception to the disclosure rule? What information can I release to the public? Government lawyers are faced with a raft of special rules and obligations surrounding information, and rightly so. As holders of critical data, personal details and security information, it is government's duty to protect it. Gain clarity on exactly what your obligations are so that you don't make a mistake you'll regret..
